

Hi! My name is Chloe Scott, a third year at Harper & Keele. I am from Monaghan, Ireland and I'm really enjoying my time here in England. In my free time I play Gaelic football and I am the chair of the Harper Ladies Gaelic Football Association (LGFA) team.

I have an interest in large animal veterinary medicine, I also have an avid interest in Official Veterinarian work and hope to develop these interests further during my clinical placements.

I was attracted to this topic as antimicrobial resistance is a serious concern throughout both human and animal medicine globally. In order to safeguard human and animal health and the environment, AMR needs to be tackled.

Thank you for taking interest in my poster, if you have any questions please don't hesitate to contact me!
